Summary

the scoop was 26mm. I made it wider, 40mm, to be more similar to the pax budkups loader

I made the scraper 14 mm wider, bringing it from 26 to 40. The tray was modified to accomodate the larger scraper. I also inlcuded a little packer on the end for the capsules, which was useful on my pax budkup system

edit: I added a 12-cup version because I had so much free real estate. Couldnt say no.
