Summary

Bed Clip for beds with glass covers.

[3D Printers](#) > [Accessories](#)

Tags: [clip](#) [bed](#) [bedleveling](#)

This is a simple clip i made to stop fussing with all the other designs available.
its easy:

- print the bed clip bottom file.
- Measure the height/thickness of your bed/glass.
- print the appropriate bed clip top file. (if your bed+glass is 6mm, you may want to print the 5mm one, as the 6mm one wont apply much, if any, pressure on the bed.
- make sure the hole is "clean" on both parts
- add an M3 Screw + nut.

total is 3g and 15min or so for the print.
