DOSING FUNNEL RING 58mm: Espresso Grounds Beware!

Introducing the marvel of modern coffee making—a dosing ring funnel tool that says, "Espresso grounds, you shall not pass!" (Except into the portafilter, of course).

This mighty ring fits snugly on your standard commercial portafilter (58mm), like a tiny helmet for your coffee warrior.

FEATURES:

- **Slim and Sleek:** It's like the James Bond of dosing rings. No frills, just pure style.
- **No Supports Needed:** Because this funnel is so confident, it stands tall on its own. Just add a brim, and you're good to go.

- **Magnet Madness:** The MAGNET VERSION comes with holes for four 3x2 magnets. You know, in case you need to turn your portafilter into a magnetic wonder.

MAGNET VERSION:

- Uses four 3x2 magnets (get yours here: [Amazon link](#)).
- Apply some glue, and voilà! Your portafilter is now a fortress of espresso excellence.

Confirmed to fit the Flair 58 and La Marzocco portafilters. It should work with most 58mm portafilters, but if not, well, it's your portafilter's fault, not ours.

So, get ready to funnel your way to espresso perfection.
