Summary

Bird feeders are round, birds are hungry so need feeding, hence, bird feeders need filling quickly - my design

Tags: [scoop](#) [birdfeeder](#)

Had tried other models for a bird feeder scoop and they frustrated me. Bird feeders tend to be round, I wanted to fill mine quickly, (having many to fill), so I designed one that can fill and empty at a rate that does not leave me wanting to chew off my arm in impatience.....

Designed with Alibre.
This built in PLA.....
