Inspired by [StawiamKlocki_pl](#)'s [G5 mini PC case](#) for the Raspberry Pi 4B. This model aims to emulate the Corsair 4000D/5000D PC case for use as with an RPI 4B.

Required

4 x M2.5x4

1 x Raspberry Pi 4B

1 x Clear plastic square 92mm x 70mm x 1mm

- Can use disposable food container lid, or clear cover of a notebook
- [Amazon food container example](#)
- [OfficeWorks notebook example](#)

Based on this [RPI 4B](#) model from GrabCAD

1 Jul 24 - Please note I have not yet had the time to print this for myself. If you do print this before me please let me know how it went by providing feedback so that I can improve the model.
