Summary

A bean hopper for the Melitta Fully Automatic Espresso Machine E950-213 to fit more beans.

[Household](#) > [Other House Equipment](#)

Tags: [espressomachine](#) [reservoir](#)

A bean hopper for the Melitta Fully Automatic Espresso Machine E950-213. It allows you to add way more beans to the machine. The original lid is re-used.

I suggest to only print and use this if you have lots of traffic on your machine, as normally you want to keep your beans as fresh as possible.

Print in PETG, 20% infill.
