updated 3. 7. 2024 | published 3. 7. 2024

Summary

I couldn't get my hands on a 16mm-ESC/FC Stack so i remixed ProgrammaDan's Dragonfly Model to fit a 20mm-Stack.

[Hobby & Makers](#) > [RC & Robotics](#)

Dry Weight: 116g
Take Off Weight: 168g

Used Parts:

FC/ESC: Speedybee F405 mini
VTX: HGLRC Zeus Nano
RX: Happymodel ExpressELRS EP2 Nano
Motors: EMAX ECO 1106 4500KV
Camera: RunCam Nano2
Battery: Tattu 3S 650 mAh

This remix is based on

Dragonfly FPV Drone
by ProgrammaDan
