updated 1. 7. 2024 | published 1. 7. 2024

Summary

I wasn't happy with the sharp edge caused by merging the hinge with the block so I cleaned it up.

[3D Printers](#) > [Creality Parts & Upgrades](#)

Tags: [lid](#) [hinge](#) [riser](#) [k1](#) [k1c](#)

IMO a cleaner version of the Hinged Lid Stop.

Features

- Full print on one (1) bed (220 x 220mm)
- No supports required
- No bed adhesion required (i.e., autobrim, raft)

Additional parts required

- None

My print configuration

- Material: PLA
- Infill: 15%
- Infill Pattern: Gyroid
- Supports: No

- Brim/ Raft: None
- Orientation: Print on its side so there are no major overhangs.
