Summary

Phone mounting shell to glue on the out front mount.

[Sports & Outdoor](#) > [Outdoor Sports](#)

Mounting shell for Pixel4a with a slim Spigen case. I glued it on top of the modular out front mount for 31.8mm (1 1/4") handlebars **<https://www.printables.com/model/929488-bicycle-out-front-mount>**.

The top clip broke off easily in my first version, so I included a repair clip. Have not tested the current version longterm yet.

Printed in PETG on Bambulab A1 with 0.2 strength profile and 5 bottom layers.

This remix is based on

Nothing Phone (1) - 40mm Bike Tube Mount

by Chrismettal - Binary-6
