Summary

Quick edit, as I don't need as many holes, and wanted to just use velcro on a bedside table.

[Household](#) > [Bedroom](#)

Tags: [holder](#) [cable](#) [desk](#) [charger](#) [phone](#) [lead](#) [bedside](#)

Just got rid of the screw holes and made it 3 holes only for bedside.
I'm no longer looking for the cable under the bed.
Printed draft in PLA on X1c, 10 mins tops.
