My silent bloc were utterly destroyed and I resigned myself to buy 3 **LYA105070** for an absurd price. After waiting for 3 weeks only for the seller to tell me it was out of stock, I designed this replacement.

Printed in Polyflex TPU95.

2 Walls. 3 Top and Bottom layers. 15% Gyroid infill.

Custom supports included on the .3mf, made with Bambu Studio.
