Summary

Modified lid to fit Extrudr 800g spools for "Bambu Lab AMS Universal Spool Center Desiccant Holder" from @NeedItMakelt

[3D Printers](#) > [Bambu Lab Parts & Upgrades](#)

This is a remix of the lid of <https://www.printables.com/de/model/576578-bambu-lab-ams-universal-spool-center-desiccant-hol> from @NeedItMakelt to fit Extrudr 800g spools, that are slightly thicker than Bambu spools.

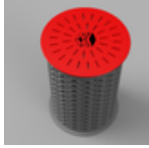

Please read the description and print instruction of the original.

In addition to that:

Print in Vase Mode with 10 Bottom Shell Layer in 0.2mm Layer height (= 2mm).

If there are less than 2mm of Bottom Shell Layers, the print will fail because of the vase mode.

This remix is based on

Bambu Lab AMS Universal Spool Center Desiccant Holder
