updated 12. 12. 2021 | published 12. 12. 2021

Summary

Modified support test parts and put numbers to make it easy to identify.

8.86 hrs

1 pcs

0.05 mm

0.40 mm

PLA

108 g

Prusa MINI /
MINI+

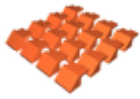

[3D Printers](#) > [Test Models](#)

Please use it with your various setting for each. You can tune top / bottom contact of support. Unnecessary part for bottom contact check which is above the support can be removed easily. Please try it.

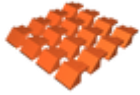

If you can see the link here, you can find my tuning result. Sorry in Japanese.
