### Summary

When you need to pump water from aquarium tank to bucket or from water container to aquarium and need to clamp hose.

[Household](#) > [Pets](#)

Tags: [holder](#) [clip](#) [aquarium](#) [tank](#) [clamp](#) [reef](#) [hose](#)

For hoses 13.5 and 15.8mm maybe will fit more diameters too. Use 4 perimeters or more, 100% infill.

Fits on the aquarium tank walls, bucket rim etc. Deisgned to fit on different width glass/acrylic.

Do you know the feeling when you pump the water from aquarium and the hose goes ballistic with water everywhere? Yeah, you are welcome. Please post your prints :) Cheers Tom.
