Remix of faceplate for Xol Toolhead (June 2024) with Voron logo

This remix is based on

GitHub - Armchair-Heavy-Industries/Xol-Toolhead: Xol Toolhead is the evolution of 'Mantis Xol 2'. Aimed at modularity and quality of life improvements for installation and serviceability. We have left the mantis carriage behind, and thus are now just Xol sans Mantis. Don't worry, it's still a bit ugly. We wouldn't fix that.
