[dasfilament](#) [organising](#) [55mm](#)

Handle to hang a spool to the **2020** profile with 4 **M5 pan head** screws.
The model has counterbore, so the heads of the screws will slot in.

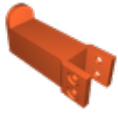

It fits **Item, V-Slot** profiles, as long as they have 20mm at one side.

It fits spools with width of 55mm. e. g. spools from dasFilament.

This model was made using **FreeCAD 0.21.2**

If you need the FreeCAD file, let me know, then I will upload it as well.
