This is a nice looking but barely swimming model of a wooden dinghy. Prints nicely (even in PETG) but swims not to well (floats to deep). You might get different results if you go for SLA prints, but that is something I can't do.

Print instructions Category: Models Print Settings

Printer Brand: Prusa

Printer: i3 MK3

Rafts: No

Supports: Yes

Resolution: 0.1 or better

Infill: doesn't matter

Filament: Das Filament PETG Schiefergrau
