Tags: [shelf](#) [mini](#) [miniature](#) [stl](#) [minishelf](#) [hsw](#)

This is a mini shelf for the [honeycomb storage wall](#). Its size is 40mm x 40mm. You can perfectly fit a benchy on it. Also you can stack multiple next to each other.

My print settings:

- * 0.4 mm nozzle
- * 0.2 mm layer height
- * 3 walls
- * 15% infill
- * no supports needed

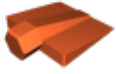

Change log:

I created a second version. There is no real difference just the looks.

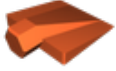

Happy printing!
