Print Settings

Printer Brand:

Creality

Printer:

CR-10S

Rafts:

No

Supports:

Yes

Resolution:

0.16mm

Infill:

No, but 3 perimeters

Notes:

I've printed with 10% infill, but 3 perimeters + some top/bottom layers so there wasn't any infill as the walls are only 1.2mm.

Post-Printing

There's only one support structure needed, inside the can to help bridge the spout. Break it off, done.

How I Designed This

To be honest, I only invested 10 minutes. It may be a bit wonky...

Designed in Fusion 360, created some circles, lofts and fillets/chamfers. Done.
