Found ClubbedEwoks Sandpaper Storage 5inch French Cleat with dividers and ROS positioner - parametric and love how it turned out but my collection of sandpaper included more grits than was offered. So used my slicer to put new values in the dividers. I also needed to use screws to attach the holder to my wall so added some screw holes.

Update: Removed the holder stl as my export from PrusaSlicer won't include the negative volume for the screw holes. Instead the 3mf and gcode should have it.
