## Summary

A small vendor cart is a great piece of tabletop RPG scatter terrain.

Add to your tabletop scatter terrain with this supportless cart! Meant to be pulled by a humanoid or other medium-sized creature, this basic cart is what you will find on any fantasy farm or marketplace square. This assembled cart is pictured with a 28mm miniature as well as a 32mm miniature for scale.

This is a supportless print that requires assembly.

### Instructions:

- Print 2 wheels, 1 cart, and 1 axle at .08 or .1mm layer height
- Using super glue, attach the two wheels to opposite ends of the axle
- After the wheels are secured, glue the axle to the bottom of the cart, under the third board.

All of my items on Printables are free for commercial use. You can follow me on Patreon @ RoleplayingRelics.
