updated 11. 7. 2024 | published 11. 7. 2024

## Summary

A vase looks like a pyramid in Egypt.

The idea for this pyramid-shaped vase came to me this morning while looking at vacation photos from Giza, Egypt.

So that it doesn't look too boring, I imagined a semi-transparent interior and designed the vase that way.

The model consists of two STL files. The inner shape can be printed with semi-transparent PETG in different colors.

To sell this model commercially, you need an active membership in our "Commercial Partner" club or a "Big Daddy Patron" level membership on Patreon.
