updated 2. 7. 2024 | published 2. 7. 2024

## Summary

Remix with quite a lot of differences, includes some mounts, screws, and extensions.

[Gadgets](#) > [Virtual Reality](#)

Tags: [esp32cam](#) [vr](#) [mouth](#) [valveindex](#) [seedstudio](#)  
[tracking](#) [esp32s3](#) [projectbabble](#)

Modified to fit a larger 160 deg FOV camera, new mounts with proper tolerance to fit an m5 bolt. (Commonly used for GoPro.)

Included an extension arm I made for this and a universal mount designed to fit the Index.

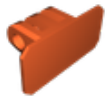

## This remix is based on

## XIAO Sense Case (Seeed Studio XIAO ESP32S3 Sense, Camera) with Vive Facial Tracker Mount
