### Summary

A pen holder for USB-A port. The slim design allows you to use it in a 2-in-1 laptop in any configuration.

An updated version of [this](#) Lenovo USB-A pen holder. It has a slimmer and more centered design, to fit 2-in-1 Yoga laptops (tested on Yoga 7 14ARB7) and a standard Lenovo Yoga pen (Lenovo Digital Pen 2) in any configuration.

With the original holder, you need to rotate the holder in tablet mode, as otherwise it pushes on the USB-A port. With the updated version, you don't need to worry about it, as the holder is designed to be slightly thinner than the bottom part of Yoga 7 14.
