Summary

Keeps a fishing rod propped up against the side of a car using 10x2mm or 6x3mm magnets

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [organizer](#) [fishing](#) [magnetic](#) [fishingrod](#)

If you've ever snapped off the tip of a fishing rod in your car door, you know the value of these things. Available in 3 sizes (pictured is the Small) and uses either 10x2mm magnets or 6x3mm magnets. Magnets can be super glued in place, or embedded to help prevent scratching. To print the embedded versions, add a pause at the correct layer height in your slicer.

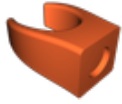

Enjoy!
