A cute home for small fish.

The "planters" on the side can be filled with sand or small rocks to keep it stable on the ground.

Printed in rainbow silk PLA.

Designed for 3d printing and to print without supports. 1.2mm walls for 3 walls with 0.4 nozzle (can still use 0.6 walls) or 2 walls with 0.6 nozzle.

As is the model took about 2.5 hours and used 52g of filament. Its ~117mm(4.6 inch) tall and symmetrical so feel free to scale it to whatever size you need.
