Tags: [tank](#) [history](#) [army](#) [british](#)

The Centurion Mk 1 was the first variant of the Centurion medium tank family. Despite being classified as a medium tank by World War II standards, it can also be regarded as an early precursor to the Main Battle Tank, a designation established after the Second World War. The Centurion family is largely regarded as one of the most successful post-war tank designs, with manufacture continuing into the 1960s and combat continuing into the 1980s.
