Summary

finally a use for the original spool holder which was just laying around

I had the original A1 mini spoolholder laying around and was not using it. I made a heavy duty rack holder that i can use it on my racks (two different brands and works on both)

Printed it in PETG 0.12mm, 5 walls, 5 top and bottom, 35% infill and normal support on

If you print like me in the picture is the support removal work
