updated 12. 7. 2024 | published 12. 7. 2024

### Summary

from scratch one-piece plate using machining highgrade alu sheet (8mm... 10mm)

[3D Printers](#) > [Creality Parts & Upgrades](#)

Tags: [hotbedholder](#) [ender3v3ke](#)

not for plastic print

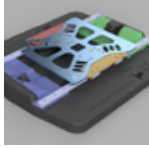

CNC machined from 8mm alu sheet and hand tappet threads - 4 M4, 3 M3, 2 M2.5

compatible with rail upgrade by @NeedItMakelt

increased overall stiffness, with mzv and 4000 acceleration (Yaxis)

P.S. overengineered it because steel plate was 500g and this just 160-190g
