Summary

Base for cast skull

[Art & Design](#) > [Other Art & Designs](#)

Tags: [skull](#) [base](#)

This is a simple base for cast skulls. The skulls are made of filament scraps, that are molten in a skull silicone form. The base is designed to screw the skull to the base. Attached is also a little spacer to modify the angle of the skull. For my project i added text to the base, but the attached STL file is "blank". Modify to your liking.
