I chose to title this as an “S-Hook for Swim Essentials” because that's how I use it on a daily basis. This Hook along with a mesh bag is a practical way to temporarily hold your swimming gear (buoys, paddles, goggles etc.). You will be able to hang the bag on, for example, a nearby privacy protection wall by the showers or a horizontal water pipe close at hand when showering before- or after your swimming session

The inside radius of the hook is R16.5 (ø33).

Prints flat to the bed, like picture is showing

When extreme heat is expected, use PETG/ABS/ASA/PC and other heat-resistant materials.

Print with 4 perimeters and a 0.3mm draft layer setting to improve strength.
