updated 12. 7. 2024 | published 12. 7. 2024

## Summary

Showerhead with a spray angle of 22/20 degrees, 1/2" thread.

[Household](#) > [Bathroom](#)

Print it in upward position (thread side down, see last picture), no support, 0.2mm layer high, PETG.

If you have adhesion problems, use a 3mm brim.

There are two model files, showerhead8 defaults to 1.0mm nozzles, the other has 1.2mm nozzles.
