Summary

A minimalist view of the wolf medallion from The Witcher Saga.

I found this PNG online (no copyright) and thought it would look really cool on my wall.

The size of the STL file was optimized for my use case. You may change the proportions on your slicer software. Although I recommend keeping the height at 1 mm, as it doesn't make a difference.

It doesn't require infill. I would use the largest layer height possible to improve printing time.
