English (This translation is computer generated):

Ostomachion is considered to be one of the oldest jigsaw puzzles in the world. It is very similar to the Chinese tangram game. It is attributed to the mathematician and philosopher Archimedes. It contains 14 different pieces that allow you to assemble up to 536 different squares without rotating and mirroring the pieces (computer calculated).

The aim of the game is to arrange the individual pieces into a square in as many ways as possible.

Česky:

Ostomachion je považován za jednu z nejstarších skládaček na světě. Je velmi podobný čínské hře tangram. Připisován je matematikovi a filosofovi Archimédovi. Obsahuje 14 různých kousků, které umožňují sestavit až 536 různých čtverců bez rotace a zrcadlení dílků (počítačově vypočítáno). Cílem hry je poskládat jednotlivé kousky do čtverce co nejvíce způsoby.
