Fountain tower for the excellent modular [desktop fountain](#) project by [@3DPrinty](#)

I remixed the tower to include 3 outlets, added a spigot to the top to accept interchangeable decorative spouts, hollowed it out and added windows.

I will add some decorative spouts here in the future. The spigot has an OD of 22 mm if you want to roll your own.

I printed mine as below:

- No supports
- Adaptive layer height
- 10% Gyroid infill

If you download and print it, please share your make.

## This remix is based on

### Modular Desktop Fountain

by 3D Printy

## Model files

### fountain\_triple\_hollow.stl

☐ Hollow - 3 windows - 3 outlets

### fountain\_single\_solid.stl

☐ Solid - 1 window - 3 outlets
