Summary

Fisker Ocean Rear Mudflaps

[Hobby & Makers](#) > [Automotive](#)

Tags: [mudflaps](#) [fisker](#)

Initial release.

The small hole should align with the factory screw. The additional 3 holes are for retainers. I included photos of the two types that I sized it for out of a retainer kit I had. Be sure you measure exactly what size you have before drilling the mounting hole into the wheel liner. Too big and they won't catch.

Included the Fusion file for those who are so inclined to make the design better. Please do!

Should print with TPO filament. Requires at least a 256mmx256mm bed.
