updated 24. 7. 2024 | published 24. 7. 2024

Summary

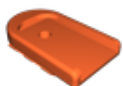

Built to fit the Glock G43 ETS magazines, to attach Mantis training system.

[Sports & Outdoor](#) > [Outdoor Sports](#)

I had best results printing vertically with a brim, but, that takes significantly longer. Acceptable prints were made by using supports from print bed only and printing with the rail side on the bed.

- 15% infill
- .15 layer height
- 2 Perimeters
