updated 14. 7. 2024 | published 14. 7. 2024

Summary

Remix of the "You Better Fly" swatter, now in STL format.

[Household](#) > [Other House Equipment](#)

Tags: [flyswatter](#)

A fly swatter made from TPU and PETG. Originally made by @pasq. Each model has been processed in Blender to clean up the geometry and exported as STL files, rather than 3MF, allowing for easier slicing.

You now also have the option to print the parts without the lettering or icons, which were present on the original models.

This remix is based on

fly swatter 'You Better Fly'

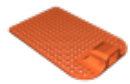

by pasq
