Summary

Air cover for the rear vent in Tesla Y 2024 german made

[Hobby & Makers](#) > [Automotive](#)

Tags: [tesla](#) [teslamodely](#)

Air vent cover for the rear vent underneath the seats, specifically made for the Model Y 2024 from Berlin Germany (see pics).

The STL is a plain block to allow custom mesh density using print settings.

Use thin strip of double side tape (like 3M VHB) to keep in place.

Printing instructions (MANDATORY):

- PETG or other heat resistant filament
- 0 top layer
- 0 bottom layer
- 6 perimeters (with a 0.4mm it will end up at 2.88mm thickness)
- Infill 15%+ honeycomb (fill angle 0)
