Summary

I wanted to combine two functions into one assembly,

[3D Printers](#) > [Creality Parts & Upgrades](#)

Tags: [tool](#) [holder](#) [filament](#) [guide](#) [ender3v3se](#)

Made in Grakit PETG Blue (230C nozzle, 80C bed, 75mm/s print speed)

0.2mm layer height, standard supports, used a brim to prevent warp due to the chunky section.

This remix is based on

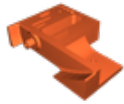

Ender 3 V3 SE Tool Holder
