Tags: [hook](#) [erdspiess](#) [groundhook](#)

Minimal remix of the ground hook by 3D\_Onkel.

Remodeled to be printed flat for optimal orientation of the layer lines against expected forces.

Uses less than 50% of the original material.

Safely anchors to the ground due to rehooks.

Features a low profile and narrow hook-head to be less noticeable and not hinder plant or grass growth around it.
