Summary

Friend of mine prefers the feel of a Bottleneck on his Lips. Lots of Summer Activity is Can-driven. So i made a Adapter.

Snaps snug on EuroCans 0,5 Liter. 3mf with imprint "Der ZUZ", stl without.

Print in whatever you want to get in contact with your drink. PLA may be too stiff unfortunately.

25% Infill, no raft, no brim. Take care of a precise calibration. In my case i need a correction to 101.25 % to perfekt 1:1 PETG prints.
