The sizes for the knitting needle holders are these

- 2.0mm
- 2.5mm
- 3.0mm
- 3.5mm
- 4.0mm
- 4.5mm
- 5.0mm

The size are precisely what they are and have not taken measures for printer tolerance so you might need to increase the size

I personally had success with 110% on my badly setup Ender 3 V2

You might only need 105% or 108% for you printer

I recommend you print the first few layers and see if they fit snugly enough for your need and then print the whole thing
