These towel hooks are an amazing addition to your kitchen or workshop. You can hang your towels using a single hand and easily take them off.

Printing:

Print them in the orientation of the .STL without supports! Make sure you have good cooling for the overhang if you print the single version.

You can scale the model down or up to meet your needs. I tested 80% which worked fine!

Use:

Use double sided tape to attach them to a surface. A version with holes is added if you want to permanently attach them somewhere.
