Summary

A cartoon looking retro TV

Tags: [cartoon](#) [retro](#) [tv](#)

I designed this cartoon looking retro TV as a gift. It has a light inside so the screen will glow up. If you decide to make this yourself you could add something on the screen or leave it blank.

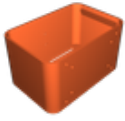

For assembly you will need some M3x8 bolts. I used a total of 12, but you need atleast 10 to assemble the TV itself. I used the other 2 to mount the lamp.

For the antenna I used some electric wire.

The buttons need to be glue in place.

If you decide to make this model dont forget to upload a make. I would love to see how yours will look like.
