### Summary

Fits perfectly ID card of Czech Republic and Germany :)

[Costumes & Accessories](#) > [Masks](#)

Print with supports, **fits perfectly ID card of Czech Republic citizen**. I suppose it should fit all EU countries? Let me know in the comments. Had some remarks this doesnt work for UK/Maryland. Since I am not able to make version for other countries, you can slice it into multiple parts in Slicer and relocate the Batman position yourself or provide me with measurements and I can edit it for you :)
