Tags: [part](#) [tray](#) [mounted](#) [kobalt](#) [parttray](#) [casestack](#)

Two trays to increase misc storage while using your CaseStack. both are 2x3 however one is 1.5" deep while the other is 3" deep.

The pictured print is the 1.5" deep variant as that is more useful to me than the deep one.

Printed in Creality Blue PETG
