Tags: [organizer](#) [storage](#) [bathroom](#) [shower](#) [showerdoor](#)

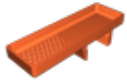

This clip-on storage unit offers a practical solution for adding storage to your shower. Measuring 150mm in length and 49mm in width, it is designed to slot over the overhang at the top of shower doors, providing additional space for items like toothbrushes, floss, and other small necessities.

The unit locks securely around the overhang to ensure it stays in place, which is particularly helpful for those with back issues who find bending down challenging. The storage unit features a hex pattern of holes on the side facing the shower to allow for efficient water drainage, keeping your items dry.

The design is simple yet effective, making it a versatile addition to any bathroom. It can hold various items securely.

Regular PLA works well for this model.
