Where is restroom? Answer is: "Follow the cat".

Just a cute alternative sign for a: bathroomdoor, shower room's door, toilet door... This one is my favorite tile.

In a sliced file, I already put colour break, for filament colour change.

When finished I put it on our toilet door by help of two bits of double sided tape or if you need holes, just remove 4 black "nail heads" by help of a scalpel.

If your printer does support ironing, you may slice yourself and add that feature, but the print time will increase significantly.

My other similar designs:

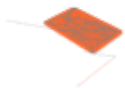

- [Where is toilet](#), sign.
- [Cat & hands](#), tile.
- [Cat & clover](#) tile.
- [Ca's Pows](#), tile.
