Archetype toolhead mounts for Mosquito & NF-Crazy Volq; plastic has been added to support the heat break and create a pocket that holds the hot end securely

This remix is based on

GitHub - Armchair-Heavy-Industries/Archetype: Total toolhead ecosystem with a focus on modularity, flexibility, and atrocity.

Model files

archetype-mosquito-25mm-v503.stl

☐ Drops the Mosquito down far enough to use w the short cooling ducts

archetype-nf-crazy-supported-v502.stl

☐ creates a pocket to hold the heatsink
